A sign language is a way of communicating by using the hands and other parts of the body. Sign languages are an important way for deaf people to communicate. Deaf people often use them instead of spoken languages.

Spoken languages use sounds from the mouth and are understood with the ears. Sign languages use hands and are understood with the eyes. Deaf people can use sign languages more easily than spoken languages. Deaf people sometimes learn a sign language from their family, especially if their parents are deaf. But most deaf children have hearing parents, so they learn a sign language from other deaf people. They may meet other deaf people at school or in the streets. Hearing people may learn to sign directly from deaf people. Or, they may learn a sign language by going to signing classes or by studying a sign language workbook.

1. Which group of people often uses sign languages?

Deaf people use sign language.

2. How do deaf people learn a sign language?

Deaf people sometimes learn a sign language from their family, especially if their parents are deaf. But most deaf children have hearing parents, so they learn a sign language from other deaf people.

- 4. Sign languages are not important for deaf people. a. True b. False ✓
- 5. Sign languages use hands and other parts of the body. a. True ✓ b. False

In many countries, people know more than one language. Knowing different languages may help people have a better future in their education and job and have a nice understanding of foreigners living around the world. For example, Indians should know English besides their native language if they want to study at university or have a good job.

If someone knows just one language, he is called a "monolingual" and if he knows two languages, he is a "bilingual". Despite learning a foreign language is not easy, there are more than one billion bilinguals around the world that their second language varies according to their needs and interests. That is why children learn a foreign language just from the elementary school. Scientists believe that a child can learn a language as quickly as possible, so it's better to learn a new language when you are young.

These days many people eat ready - made food .This means food which is already prepared, in packets or cans, or often frozen. People also go to fast foods restaurant a lot, where they buy take- away meals. This type of food is suitable in the busy, modern world, but it often contains a lot of fat or sugar. If you eat a lot of sugar, dentists say you might get holes in your teeth. Similarly, if you eat a lot of fat, doctors will tell you that this is bad for your heart. Most scientists say that the best food is fresh, natural food such as fruit and vegetable .They also say that we should cut down on the amount of fat we eat. Nowadays we eat too much oil and butter. Instead of frying food in fat, we should lightly boil it. Steam it, or eat it uncooked as in salads Food which hasn't been cooked often contains more vitamins. These vitamins are often destroyed during cooking. Of course, it is as we get older that we start to notice the effect of bad eating habits When we're young we don't have to worry too much, but it's a good idea to develop good eating habits as early in life as possible.

1. Why is uncooked food often better for us?

- a. Its vitamins are not damaged ✓
- b. It has less sugar and fat
- c. It is easier to eat in this busy world.
- d. It can be bought from fast food restaurant

Woodcarving is an art with a history that goes back thousands of years. It is a skill that takes many years to develop, and the results are truly beautiful. Woodcarving can be found in many countries around the world, and each has its own unique style and techniques. Iran is home to many talented woodcarvers. There are many stores in Iran where you can buy beautiful wooden objects such as bowls, picture frames, boxes, and more.

There are many different types of woodcarving. For example, you can find wooden statues, wooden animals, and wooden furniture. Unfortunately, woodcarving is a dying art form. Although it is still practiced in many countries, there are fewer and fewer people who can make a living from this craft. One reason for this is that young people are often more interested in other fields such as engineering and computer science.
