	<b>Reading</b>	<b>4</b>
<b>J</b>	<b>Read the passage and answer the questions.</b>  Around the age of 26, Beethoven began to hear ringing in his ears. In 1800, aged 30, he wrote from Vienna to a childhood friend, saying that he had been suffering for some time: "For the last three years my hearing has grown steadily weaker." Beethoven tried to keep news of the problem secret from those closest to him. He feared He would lose his job if anyone realized.  Once, Beethoven was walking with fellow composer Ferdinand Ries when they saw a shepherd playing a pipe. Beethoven would have seen from Ries's face that there was beautiful music playing, but he couldn't hear it. It's said that Beethoven was never the same again after this incident, because he had confronted his deafness for the first time. Beethoven could apparently still hear some speech and music until 1812. But by the age of 44, he was almost totally deaf and unable to hear voices.  But even after losing his hearing, Beethoven continued writing music. He had heard and played music for the first three decades of his life, so he knew how instruments and voices sounded and how they worked together. He could always imagine in his mind what his music would sound like. As his hearing got worse, he would sit at the piano, put a pencil in his mouth, touching the other end of it to the soundboard of the instrument, to feel the vibration of the note.	<b>4</b>

N	<p><b>Read the text below and then answer the questions.</b></p> <p><b>Fast Food Follies</b></p> <p>About half the young people in America are heavier than they should be. That's because they eat the wrong food, or they eat too much or too often. Or all three! American doctors keep warning about 'overweight kids' and some things are Changing, very slowly. However, a lot of habits are very hard to Change. Fast Food restaurants, for example, are as popular as ever, at all times of the day. Hotdogs, hamburgers and French fries are still the most popular things to eat. The problem is that they are high in calories and fat. Another problem is to encourage children and teenagers to eat their greens.</p> <p>"I often come in for a burger after school," says Billy, a teenager from San Francisco. "They are so tasty and cost only a dollar! We also come here because it's a good place to sit and chat" But eating too much is not the only reason why people get fat - drinking too much has the same effect. In summer it's so easy to drink too much. In America, people drink lots of soda pop, such as cola and 7 up. The reason is simple. They are on sale everywhere: in shops, cafés.... And compared to Europe, it's very Cheap. But each small soda contains spoonful of sugar. No wonder people get fat!</p> <p>39. <b>K</b>	<p>1. People who eat a lot of fruit and vegetables are less likely to have heart problems. You should eat at least five portions of fruit and vegetables a day. One portion is e.g. a banana, an apple, one slice of melon or pineapple or two plums. Remember that potatoes are not included on that list.</p> <p>2. eating too much salt can raise your blood pressure. And people with high blood pressure are three times more likely to develop heart disease or have a stroke than people with normal blood pressure. So you could easily be eating too much salt without realizing it.</p> <p>3. Having too much fat can cause heart disease. Products that contain large amounts of fats are meat pies, cheese, butter, cream cakes. You should replace butter with vegetable oils, which don't contain saturated fat.</p> <p>4. Sugar is added to many types of food e.g. fizzy drinks, juices, sweets, biscuits, cakes, ice cream.</p> <p>5. O	<b>Read the passage and answer the questions.</b> As time goes by, doctors and scientists are finding a strong relationship between the mind and the body. It's becoming clear that how you feel mentally and emotionally is very important for the way you feel physically. Have you ever thought that once you passed the age of 20, you start to die? Of course, that is generally a slow process, but you can't escape from it. Teenagers find it difficult – if not impossible – to imagine themselves as middle-aged or old people. That's because they are young, fit and strong; however, if they don't get into the habit of taking regular exercise early in life to keep like that as long as possible, they will have lots of problems when they are older. One of the easiest ways to keep fit is to stick to a healthy diet; that is to say, to eat fruit, fresh vegetables and food containing fibre, regularly. Smoking is something you must give up if you want to be healthy. Also, try to reduce your alcohol consumption and avoid being too fat.  <b>Circle T (True) or F (False).</b> 48. There is a relationship between mind & body. T F 49. Our bodies start to die slowly after our twenties. T F 50. Teenagers know how old people feel. T F 51. Exercising early in life is important. T F 52. You will not get any health problems with exercise. T F 53. We should keep a healthy diet. T F 54. Being fat is ok. T F 55. Alcohol is very bad for you. T F

<b>I</b>	<p><b>Read the passage and answer the questions.</b></p> <p>As time goes by, doctors and scientists are finding a strong relationship between the mind and the body. It's becoming clear that how you feel mentally and emotionally is very important for the way you feel physically. Have you ever thought that once you passed the age of 20, you start to die? Of course that is generally a slow process, but you can't escape from it. Teenagers find it difficult- if not impossible- to imagine themselves as middle-aged or old people. That's because <u>they</u> are young, fit and strong; however, if they don't get into the habit of taking regular exercise early in life to keep like that as long as possible, they will have lots of problems when they are older. One of the easiest ways to keep fit is to stick to a healthy diet; that is to say, eat fruit, fresh vegetables and food containing fiber, regularly. Smoking is something you must give up if you want to be healthy. Also, try to reduce your alcohol consumption and avoid being too fat.</p> <p><b>True / False</b></p> <p>35. There is no relationship between mind and body.                      True              False</p> <p>36. S	Nowadays, the Internet has become an important part of our lives. We can go online to do shopping, play games, make new friends and learn things. More than four billion people in the world use the internet. However, not everything about the internet is good. First, many people overuse the internet. It is common for people to use the internet 24 hours each week, or about 3-4 hours each day. Many people say that the internet is more important than watching TV, having a car, or even getting washed. Second, some people use the internet at work. This makes their boss angry and fire them. Third, when people use the internet so much, they may not be healthy because they don't get much exercise. Fourth, many people have "friends" on facebook, but these may not be real friends. Real friends are people you can see face to face. Two or three real friends are better than 200 facebook "friends" that you never see. Finally, some people are criminals. They are bad people and they use the internet to try to steal your money.  Circle True or False. 61. We use the internet for so many things.

<b>N</b>	<p>متن زیر را با دقت بخوانید و به سوالات داده شده پاسخ دهید.</p> <p>An endangered language is a language that has very few speakers (less than 99 speakers). Nowadays, many languages are losing their native speakers. About 548 languages are becoming extinct. When a language dies, the knowledge and culture disappear with it. A lot of endangered languages are in Australia and south America. Some of them are in Asia and Africa. The number of live languages of the world is around 7000, and many of <u>them</u> may not exist in the future. Many researchers are now trying to protect endangered languages. This can save lots of information and cultural values of people all around the world.</p> <p>55. Most endangered languages are in Asia and Africa. a) True b) False</p> <p>56. No one tries to save endangered languages. a) True b) False</p> <p>57. There are about ..... live languages in the world today. a) 99 b) 1000 c) 548 d) 7000</p> <p>58. In line 5, the pronoun "them" refers to ..... a) endangered languages b) native speakers c) researchers d) live languages</p> <p>59. What is an endangered language?</p> <p>60. What happens when a language dies?</p>	<b>4</b>
<b>O</b>	<p>متن زیر را با دقت بخوانید و به سوالات داده شده پاسخ دهید.</p> <p>How to stay healthy</p> <p>We all want to be fit and healthy, so here are some tips to help.</p> <p>Get lots of exercise. Watching TV or playing computer games won't make you fit, but playing sports will. You can join a club or play with your friends in a park. If you don't like team sports, you can walk to school, go swimming, or try skating instead. Regular exercise makes you feel stronger and gives you more energy.</p> <p>Eat a healthy diet. Candy, chocolate, and chips are fun to eat sometimes, but it is not good to eat them every day. These foods contain too much sugar, fat, or salt. Make sure you eat vegetables, such as cabbage, with every meal, and plenty of fruit, too. Fruit and vegetables help you stay healthy and grow strong.</p> <p>Drink lots of water and milk. Water or natural juices are better for you than soda because soda contains lots of sugar. Eating a lot of sugar is bad for your teeth. One can of cola contains about nine teaspoons of sugar! Milk is good because it contains lots of calcium. You need calcium to help your 206 bones to grow and keep your teeth strong.</p> <p>Have healthy relationships with others. Recent research has shown that a good social life decreases the risk of death. Sadly, some people do not visit their relatives very often these days. They are really busy with their work and usually use technology to communicate.</p> <p>61. Swimming and skating are team sports. a) True b) False</p> <p>62. You have more than 200 bones in your body. a) True b) False</p> <p>63. How many tips have been given by the writer in the above passage? a) 2 b) 3 c) 4 d) 5</p> <p>64. People don't visit each other very often these days because ..... a) they have less money b) they have lots of things to do c) there is no technology d) they don't have a healthy diet</p> <p>65. How can you feel stronger and more energetic?</p> <p>66. According to the passage, why shouldn't you drink soda?</p>	<b>4</b>
